Hi folks. Refreshing this from my to-do list.

What do you think of this draft answer?

Hi Paul. Thank you for your question and apologies for the delayed response.

Ex. 5 Deliberative Process (DP)

Please let us know if you have any additional questions.

This question came into the TCRS email box.

I'm thinking we can just point them to the timeline for the part 2 report? Conclusions from the part 1 report?

Hi Kelly,

I live in a suburb of Minneapolis, Minnesota. Our highschool & middle school are looking at installing artificial turf this year. The school board has not engaged the public about it, so we're trying to find our own information.

It sounds like the jury is still out as far as safety of artificial turf fields (toxicity and heat impacts) but that there is an upcoming Part 2 of the EPA report that might help us make conclusions, is that right?

I cannot believe the school board is willing to spend \$1.3 million without getting solid information about safety....

Thanks for any help!
